Andar Bahar

Objective

Predict whether the Joker card will be drawn on Andar or Bahar side.

Game Rules

In Andar Bahar, the objective of the game is for players to predict which side a “Joker” card will appear; either Andar or Bahar.

To begin a game round the Dealer deals the first card which is commonly known as the “Joker Card”. After which the dealer will begin dealing a single card to each side: A card will be first drawn on Andar and then Bahar and Andar again and so forth until a card with the same value (or face) regardless of the suite will be drawn on one of the sides. The player needs to simply predict on which side (Andar or Bahar) a card sharing the same value (or face) as the Joker card will be drawn first. Once this matching card is drawn on either side the round ends.

Players that bet on the winning side will win the bet based on the payout table below (betting on the other side will result in losing the bet). The game is played with one deck of cards that are shuffled before each round by the dealer. The deck is cut after the shuffle and the dealer reveals then the Joker card.

Payout table

Andar X1.9

Bahar X2

Side Bets

Placing a bet on the side bet does not require placing a bet on Andar or Bahar main bet (but can be done in addition to the main bet).

The side bet allows the player to predict the number of cards that will be dealt after the Joker card until a card sharing the same value (or face) as the Joker card will be drawn in either Andar or Bahar.

For example if a player believes the Joker card will be dealt in the first five cards then he can place a side bet on 1-5 (1 to 5) on odds of 3:1 (three to one). If the card sharing the same value (or face) as the Joker card is drawn within the first 5 cards the player will win 3 times their bet amount.

Side bets are paid as follows:

1-5 (1 to 5)	X3.5
6-10 (6 to 10)	X4.5
11-15 (11 to 15)	X5.5
16-25 (16 to 25)	X4.5
26-30 (26 to 30)	X15
31-35 (31 to 35)	X25
36-40 (36 to 40)	X50
41 or more	X120

Betting Instructions

The Joker card is dealt and then betting round starts. To place a bet, select a chip value from the slider and then click directly where it says Andar or Bahar. Once the timer has finished the countdown, the dealer will begin dealing the cards (Andar first). If there is a game in progress you will need to wait until it has completed before placing a bet.

Error Handling

If there is any error in the game procedure, the game round will be temporarily paused and the shift manager will be notified. Players will be notified by an on-screen pop-up message, to notify the player that the issue is in the process of investigation. If the manager can immediately resolve the error, the game round will continue as normal. If immediate resolution is not possible, the game round will be cancelled and initial bets will be refunded to all players who participated in the game round.

Disconnection

The Ezugi Live Dealer services are provided via internet, which inevitably may disconnect at times. This poses potential snags to the game flow and user experience.

In order to minimize the impact caused by unexpected disconnections, when a player loses his connectivity to the game server, a reconnect message will be displayed on the screen.

Until the player reconnects to the game server, the game and chat functionality will behave improperly or be completely inactive.

Should a system disconnection occur after a bet was placed on the **Andar Bahar** table and before the timer has completed, the bet will not be deducted from the balance. If a disconnection occurs after the bet was finalized and already deducted from the balance, yet before the game results are known, the bet will be processed as usual and the balance will update according to the game results.

The following error handling rules apply:

- In the event that a disconnection occurs before bets are placed, i.e. before the 'No More Bets' message on the screen, the bet will not be deducted from the balance and the player will not participate in the game round. Once reconnected, please verify your balance and inform your casino operator immediately if there are any issues.
- In the event that a disconnection occurs after a game round begins, i.e. after the 'No More Bets' message on the screen, we do not guarantee that your bet was placed. Please verify with your casino operator to assure the balance is correct. If the bet was placed, the game will proceed as normal and the winnings will be processed according to the game result regardless of the disconnection. Please note the following exceptions:
 - If playing on multiple seats games, there is a possibility that only some bets process while others don't.
 - A disconnection message might not be displayed to the player, and all decisions will proceed as the default decision.
 - In the event that a client disconnection occurred while playing the game, regardless of the status of the game, please make sure to review your balance after the reconnection and contact your casino operator if there is a problem.

Teen Patti

Objective

The objective of Teen Patti is to get a better 3-card Poker hand than the dealer's using the player's 3 dealt cards against dealer's 3 dealt cards.

Game Rules

The game is played with a single 52-card deck (excluding Jokers), cards are shuffled after each game round.

Any number of players can participate in a single game simultaneously, each taking no more than one seat.

Betting Instructions

Players must place an initial bet, the 'Ante', to participate in the round.

Place a bet by selecting a chip value from the available chips and clicking on the bet option on the table before the timer runs out. You cannot join a game in progress.

The Rebet button will rebet the last bet placed. After clicking on the button, it will be replaced by the Double button.

The Double button doubles the rebet, so long as this new value is both within the allowed limits and the player's playable balance. If doubling all bets exceeds the player's playable credit, only the first few bets will be doubled until the playable credit limit is reached.

The Undo button located under the Rebet will cancel the last action.

The Clear button will remove all of the bets placed.

Adding excitement to the game, the player can also place a bet on one of the Side bets: 'Pair or better' or '3+3 Bonus' or in both, which pays out when a pair or better are dealt out in the 3 players cards (for Pair or better) or Three of a kind or better are dealt out in the 6 cards: 3 players cards and 3 dealer cards. More details about the side bets can be found below.

Playing Instructions

You will receive three cards. The dealer's three cards will be dealt face down.

If you feel confident in your hand, click 'Play' to place a Play bet equivalent to your Ante bet.

Otherwise click 'Fold'— thereby ending the round and losing your Ante.

If decision time has expired and you have not yet made a decision to 'Play' or 'Fold' then your hand will be automatically folded and you will lose your Ante bet placed on this round.

Game Outcomes

Result	ANTE	PLAY
Dealer does not qualify and you win	1:1	Push
Dealer qualifies and you win	1:1	1:1
Dealer qualifies and you lose	Lose	Lose
Dealer qualifies and it's a tie	Push	Push
Player folds	Lose	-

If you place an 'Ante' and 'Play' bets and get a Straight Flush, Three of a kind or Straight on your initial three cards, you win the Ant Bonus according to the Payout table even if the dealer wins the round.

The dealer must have a Queen high or better to qualify.

You win if the dealer's hand qualifies and is lower than yours. The 'Ante' bet pays 1:1 and the 'Play' bet pays 1:1.

You lose if the dealer's hand qualifies and is higher than yours. You lose both your 'Ante' bet and your 'Play' bet.

A Push is a draw – where you and the dealer have exactly the same hand. In this case, the player gets back his/her Ante and Call bet.

Where the Dealer does not have a qualifying hand (at least Queen high), you will get back your call bet and you will win the 'Ante' bet 1:1.
