Over The Table (OTT) Baccarat

Ezugi provides OTT Baccarat from various licenced Casinos around the world. Punters can place fixed odds bets on the outcome of a live baccarat game from a specific casino. The rules are the same as the rules that apply to standard Baccarat, however, for ease of reference are set out below:

Objective

Predict whether the dealer will win, player will win or they will tie.

Game Rules

In the Baccarat game two hands are dealt; one for the banker and another for the player. The player bets which will win, or if they will tie. The winning hand has the closest value to nine. The game is played with eight decks of cards that are shuffled regularly by the dealer. After a shuffle, the first card is burned and revealed to players. A number of additional cards equal to the value of the first card are then also burned (face cards equal 10). Malfunction voids all pays.

Card Values

Ace 1

Face cards and tens 0

All other cards Value stated on the card

If the cards in a hand total more than ten points, simply subtract ten to obtain the baccarat point value of the hand. (e.g. $8+8=16$, but counts as 6. $Jack+7=17$, but counts as 7.)

A two-card total of nine is the best hand and is called a "Natural". The second-best hand is a "Natural" eight. If both the player and banker are dealt identical hands, the game ends in a tie and bets on both the banker and player are returned.

The dealer will deal two cards for the player's hand and two for the banker's hand. If the value of either hand is eight or nine (a natural) the hand is complete and no further cards are dealt. Otherwise, the player gets dealt another card for a hand sum up to, and including, five. If the player did not draw a third card, then the banker is dealt a third card using the same rules mentioned above.

If the player did draw a third card, then the banker follows these rules: If the player's third card is a 2 or 3, the banker will draw if he has a 0-4 and stays with a 5-7. If the player's third card is a 4 or 5, the banker will draw if he has a 0-5 and stays with a 6 or 7. If the player's third card is a 6 or 7, the banker will draw if he has a 0-6 and stays with a 7. If the player's third card is an 8, then the banker will draw if he has a 0-2 and stays with a 3-7. If the player's third card is a 9,10, face card or Ace, the banker will draw if he has a 0-3 and stays with a 4-7. At the end of the game winnings are paid as follows: Banker: 0.95:1 Player: 1:1 Tie: 8:1

Rules for a player

- If the player has 6 or 7 he does not get the third card. If the player has a score of 5 or less, a third card is dealt.

Rules for banker

- If the player has not been dealt the third card, the dealer calls card if he has a score of 5 or less.
- If the player has been dealt the third card, the value of the player's third card and that of the dealer's hand will stabilize if the dealer gets the third card by following the table below:
- Natural Win pays 1 to 1
- Natural Tie is a Push
- Non-Natural Win by 9 points pays 30 to 1
- Non-Natural Win by 8 points pays 10 to 1
- Non-Natural Win by 6-7 points pays 4 to 1
- Non-Natural Win by 4-5 points pays 2 to 1

All other outcomes result in a loss of the Dragon Bonus bet

Over The Table (OTT) Andar Bahar

Ezugi provides OTT Andar Bahar from various licenced Casinos around the world. Punters can place fixed odds bets on the outcome of a live Andar Bahar game from a specific casino.

Objective

Predict whether the Joker card will be drawn on Andar or Bahar side.

Game Rules

In Andar Bahar, the objective of the game is for players to predict which side a “Joker” card will appear; either Andar or Bahar.

To begin a game round the Dealer deals the first card which is commonly known as the “Joker Card”. After which the dealer will begin dealing a single card to each side: A card will be first drawn on Bahar and then Andar and Bahar again and so forth until a card with the same value (or face) regardless of the suite will be drawn on one of the sides. The player needs to simply predict on which side (Andar or Bahar) a card sharing the same value (or face) as the Joker card will be drawn first. Once this matching card is drawn on either side the round ends.

The player will have two options to place bets on Andar or Bahar:

During the first bet timer – after the dealer reveals the Joker card

During the second bet timer – after the dealer deals the first card for Andar and the first card for Bahar.

Players that bet on the winning side will win the bet based on the payout table below (betting on the other side will result in losing the bet). The game is played with one deck of cards that are shuffled before each round by the dealer. The deck is cut after the shuffle and the dealer reveals then the Joker card.

If the 1st card for Bahar is the joker card then all the Andar bets losses and all wining bets will be paid to 25% of the bet, and if the 1st card for Andar is the joker then all the Bahar bets losses and Andar bets will be paid even money.

Once the 1st cards for both Andar and Bahar are drawn and if not winning hand dealer will announce:

“2nd bet open” and now players can play only on 2nd bet with table limits, if 1st card of 2nd Bet (meaning if the second card dealt on Bahar) is the joker then all Andar bet losses and 2nd Bahar bet will be paid 25% and 1st bet will be paid even money.

If not the above the game will carry on till the joker card is out in any of the slots (Andar /Bahar) and whichever side joker shows up that will be the result so all other bets losses and winning bets will be paid even money.

Payout table (for both first and second bet):

	Wins in first card dealt	Wins in second card dealt	Wins on third card dealt or after
Andar first bet	1:1	1:1	1:1
Andar second bet		1:1	1:1
Bahar first bet	0.25:1	1:1	1:1
Bahar second bet		0.25:1	1:1

Side Bets

Placing a bet on the side bet does not require placing a bet on Andar or Bahar main bet (but can be done in addition to the main bet). The side bet can be placed only during the first bet timer and cannot be placed during the second bet timer.

The side bet allows the player to predict the number of cards that will be dealt after the Joker card until a card sharing the same value (or face) as the Joker card will be drawn in either Andar or Bahar.

For example if a player believes the Joker card will be dealt in the first five cards then he can place a side bet on 1-5 (1 to 5) on odds of 3:1 (three to one). If the card sharing the same value (or face) as the Joker card is drawn within the first 5 cards the player will win 3 times their bet amount.

Side bets are paid as follows:

1-5 (1 to 5)	X3.5
6-10 (6 to 10)	X4.5
11-15 (11 to 15)	X5.5
16-25 (16 to 25)	X4.5
26-30 (26 to 30)	X15
31-35 (31 to 35)	X25
36-40 (36 to 40)	X50
41 or more	X120

Betting Instructions

The Joker card is dealt and then betting round starts. To place a bet, select a chip value from the slider and then click directly where it says Andar or Bahar. Once the timer has finished the countdown, the dealer will begin dealing the cards: Bahar first and then Andar. Once one card is dealt for Bahar and one card is dealt for Andar then there is a new betting timer for the second bet – to bet again on Andar or Bahar. If there is a game in progress you will need to wait until it has completed before placing a bet.
